

HIMANSHU SHARMA

Jaipur, Rajasthan, India | +91-7023582952 | sharmajay9982@gmail.com
GitHub: github.com/HIMANSHU090203 | LinkedIn: linkedin.com/in/himanshu-sharma-b8388928a

PROFESSIONAL SUMMARY

Full-stack developer with experience building AI-assisted web and desktop applications using React, TypeScript, FastAPI, PostgreSQL, Electron, and Node.js. Worked on scalable product-oriented systems including hospital management platforms, AI-powered review aggregation systems, and ground control station interfaces. Interested in backend systems, product engineering, AI workflows, and user-focused software development.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript

Frontend: React.js, Electron, HTML5, CSS3, Tailwind CSS

Backend: FastAPI, Node.js, REST APIs

Database & ORM: PostgreSQL, Prisma

AI & Tools: LLM APIs, Git, GitHub, Figma

Core CS: Data Structures & Algorithms, DBMS, OOP Concepts, Operating Systems

EXPERIENCE

Research & Development Engineering Intern | Sky AI

Jaipur, Rajasthan | 2025 – Present

- Contributed to the development of product-oriented software systems involving AI-assisted workflows and modern web technologies.
- Worked on frontend enhancement, API integration, and feature implementation across multiple internal projects.
- Collaborated on scalable application architecture and user-focused interface improvements.
- Participated in research, debugging, testing, and optimization of application workflows.

PROJECTS

ZenHosp / HMS – Hospital Management System

- Developed a desktop-based hospital management system for handling hospital workflows including patient management, appointments, billing, and role-based access control.
- Built scalable frontend modules and integrated backend APIs for smooth hospital operations.
- Worked on architecture planning, workflow implementation, and modular desktop application development.
- Tech Stack: Electron, React, TypeScript, Node.js, PostgreSQL, Prisma

SkinDB – AI Beauty Product Aggregator

- Built a full-stack skincare product aggregation platform integrating reviews from multiple sources.
- Implemented AI-powered verdict summarization using LLM APIs for product insights and recommendations.
- Designed backend APIs and frontend interfaces for scalable data handling.

- Tech Stack: React, FastAPI, PostgreSQL, LLM APIs

AeroHive GCS – Ground Control Station

- Enhanced and updated the UI of an existing ground control station platform.
- Researched workflow dependencies between frontend systems, backend services, and vehicle communication layers.
- Contributed to improving usability and operational clarity for mission control workflows.
- Tech Stack: React, TypeScript, Electron

EDUCATION

Bachelor of Engineering (Computer Science Engineering)

Chandigarh University, Mohali | 2021 – 2025 | CGPA: 7.66

Intermediate (RBSE)

Prince School, Sikar | 2021 | Percentage: 84.2%

Matriculation (RBSE)

Shree G.K.S.A.V.M Sr. Sec. School, Sujanagarh | 2018 | Percentage: 77.6%

CERTIFICATIONS

- NPTEL – Discrete Mathematics (Elite Certificate) | IIT Madras
- Application Development with SQL and Database – IBM | Coursera
- Python for Data Science, AI & Development – IBM | Coursera
- Introduction to Java – Coursera

RESEARCH & PUBLICATIONS

Blockchain Technology in Electoral Systems: A Pathway to Secure and Transparent Voting

DOI: <https://doi.org/10.55248/gengpi.6.sp525.1928>

ACHIEVEMENTS & ACTIVITIES

- Runner-up – Inter-School Badminton Championship
- Runner-up – District Level Chess Tournament

SOFT SKILLS

Communication | Collaboration | Problem Solving | Adaptability | Learning Agility | Initiative

LANGUAGES

English, Hindi
